The 3rd phase of “KIX CULTURE GATE Project”

**- Further step as a hub for cultural communication,
with Kansai-connected artists leading the next generation -**

Kansai Airports is pleased to announce that artworks will be displayed in the domestic area on the second floor of Terminal 1 from 30 October 2025, as the third phase of “KIX CULTURE GATE Project,” a project to share the diverse and rich culture of Kansai and Japan from Kansai International Airport (KIX).

This project aims to develop KIX, which welcomes passengers from all over the world, into a place where they can interact with art and culture. This will be the first display at Terminal 1 under this project. The corridor walls in the domestic area on the second floor of the terminal building will be adorned with art, providing a museum-like atmosphere and creating a space where our customers and members of the local communities can enjoy art as part of their daily lives.

The eleven artists participating in this phase have different art styles and connections to Kansai, and they will all bring new discoveries and colors to the airport through their unique works.

Kansai Airports Group will continue to enhance the attractiveness of the airport as a hub for cultural exchange and create exciting passenger experiences.

KIX CULTURE GATE Project

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport ("KIX") and Osaka Itami Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and has been operating the two airports since 1 April 2016.

Kansai Airports Kobe, Kansai Airports' wholly-owned subsidiary, took over the operations of Kobe Airport ("KOBE") from Kobe City and started its business as an operating company on 1 April 2018.

Under the concept of "One Kansai Airports Group", Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
