## ITAMI to hold a comprehensive aircraft accident drill

Kansai Airports is pleased to announce that a full-scale aircraft accident drill using a real aircraft will take place at Osaka Itami Airport (ITAMI) on 4 November 2025.

The drill, which will be conducted in accordance with the Osaka International Airport Emergency Plan, is designed to test cooperation with relevant organizations and ensure prompt and appropriate firefighting, rescue, and medical activities in case of an aircraft accident causing many injuries.

Kansai Airports Group will continue conducting various drills to provide all airport users with a safe and secure environment.

### Drill outline

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport ("KIX") and Osaka Itami Airport ("ITAMI") from New Kansai International Airport Company ("NKIAC") and has been operating the two airports since 1 April 2016.

Kansai Airports Kobe, Kansai Airports' wholly-owned subsidiary, took over the operations of Kobe Airport ("KOBE") from Kobe City and started its business as an operating company on 1 April 2018.

Under the concept of "One Kansai Airports Group", Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.
