Kansai International Airport T1 Renovation (Phase4) New Retail Tenants Confirmed for International Departure Area!

Kansai Airports is pleased to announce that new retail tenants have been confirmed for the International Departures Area in Terminal 1 as part of the Phase 4 renovation project.

The T1 Renovation has been carried out in stages since 2021 with the basic concepts of "expanding international flight capacity," "enhancing airside areas," and "improving passenger experience" to redesign Terminal 1. With the completion of the main functions in March 2025, prior to the opening of the Osaka/Kansai Expo, Kansai International Airport has been transformed into a more comfortable and convenient airport and is ready to meet the expected future growth in aviation traffic.

In Phase4, the final phase, the international departure area that began operation in December 2023 will be further expanded, and a total of 23 new stores will be opened, offering a wide variety of stores, including luxury brands, stores that are new to domestic airports, and stores that are unique to Japan and Kansai. The newly renovated area is scheduled to open in the summer of 2026, completing the entire process.

The Kansai Airports Group will continue to collaborate with stakeholders to create new travel experiences as a gateway to the Kansai region, welcoming domestic and international passengers.

Shaping a New Journey

Kansai Airports was established by a consortium made up of VINCI Airports and ORIX Corporation as its core members. Kansai Airports took over the operations of Kansai International Airport (“KIX”) and Osaka Itami Airport (“ITAMI”) from New Kansai International Airport Company (“NKIAC”) and has been operating the two airports since April 1, 2016.

Kansai Airports Kobe, Kansai Airports’ wholly-owned subsidiary, took over the operations of Kobe Airport (“KOBE”) from Kobe City and started its business as an operating company on April 1, 2018.

Under the concept of “One Kansai Airports Group”, Kansai Airports group strives to continuously improve its services for all airport guests through appropriate investments and efficient operations, with safety and security being the top priority. Kansai Airports group aims to maximize the potential of the three airports, for the benefit of the communities they serve.

Kansai International Airport (KIX) T1 Renovation

19 September 2025

Shaping a New Journey

Overview of T1 Renovation

■ Basic Concept - Redesign of Terminal 1

International Capacity Expansion

To respond to the rapid increase in inbound travel in recent years, the layout of domestic and international flights has been revised, and the layout of international flights has been redesigned to allow for integrated operation north and south. **(25% more space in the international area, 6 more usable stands)** Kansai International Airport as a whole has increased its international flight capacity to **40 million passengers per year**.

*FY 2019 passenger number: approximately 22 million

Airside Area Enhancement

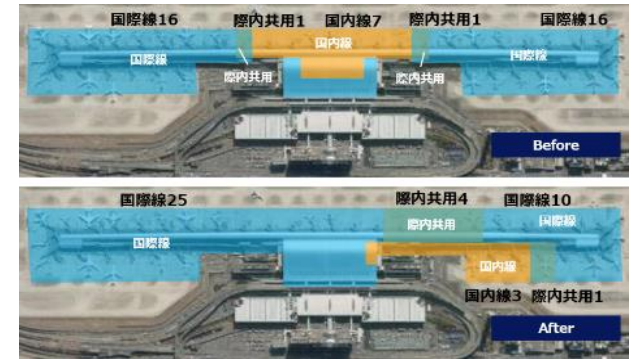

The area of the new international departure area (central portion) has been **expanded by 60%**, and the commercial area has been divided into 4 different "MOOD" zones.

Passengers can spend time before boarding according to their mood.

Passenger Experience Improvement

By promoting fast travel such as smart lanes and expanding the departure area, we will provide more comfortable time for passengers.

international flight capacity almost doubled compared to pre-pandemic levels.
